PROFILE

Full-stack engineer with a BSc in Computer Engineering and 6+ years teaching web development and databases at General Wingate Polytechnic College. Proficient across the full stack React, Node.js, MongoDB, and more with a strong foundation in HTML, CSS, and JavaScript. Currently pursuing an MSc in Software Engineering while actively building real world projects. Seeking remote full stack engineering roles with international teams and contribute to scalable, future-ready digital products.

EXPERIENCE

Web Development & Database Administration Instructor

02/2020 – Present

General Wingate Polytechnic College
